

## Cuenta sílabas

			
			
			
			

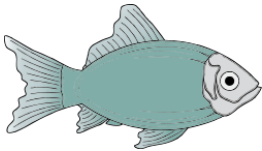

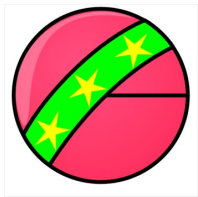

To play Cuenta sílabas, print and cut out the pictures. Take turns choosing pictures and putting them on the board. The number of stars indicates the number of syllables in the word. If you want to play a competitive version, print game boards for each player and roll a die to choose the number of syllables (5-miss your turn, 6-roll again). If you have filled all the spaces of the number you roll, wait until the next turn. You may need to print more than one set of pictures if there are several players.

This is possible vocabulary for the pictures. If you use different words, just count the syllables.

#### **Palabras con una sílaba**

flor  
tren  
pan  
sol  
cruz  
col  
pez  
rey

#### **Palabras con dos sílabas**
